Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12 January 2001.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Regarding Claim Numbering

1. In the original claims there are two claims that are both numbered 28. Due to rule 1.126 the claims were renumbered during processing and therefore all amended claims have been renumbered as well. Therefore claim 58, which was originally numbered claim 57, has not been officially cancelled. In order that the dependent claims correspond to this change in numbering, the examiner has added one to the claim number being stated as the parent claim in each dependent claim (i.e. in the body of the claim "the method according to claim 60" would be changed to "the method according to claim 61").

Restriction

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 58-77, 109-110, and 113 are drawn to a first method, apparatus, and recording medium classified in class 382, subclass 224.
 - II. Claims 78-94, 111, 114, and 116 are drawn to a second method, apparatus, and recording medium classified in class 382, subclass 224.
 - III. Claims 95-108, 112, and 115 are drawn to a third method, apparatus, and recording medium classified in class 382, subclass 224.

Distinctness

3. The inventions are distinct, each from the other because:

Inventions I, II, and, III are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because inventions I, II, and III deal with three different methods of data classification. The subcombinations have separate utilities since each method could be applied separately to achieve the results of the invention.

Because the search required for each of the groups is not required for the other, restriction for examination purposes as indicated is proper.

Complete Requirement

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Should applicant traverse on the ground that the groups are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the groups to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103 of the other invention.

Joint Inventors

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
